

Hi, ____ (my / I'm) name is Elise, and I'm _____ (go / going) to talk about the geography ____ (at / of) the Netherlands.

In the Netherlands, there are ____ (not / no) mountains, but there are some low _____ (hills / hill) in the south. There's ____ (a / at) long coastline, and there _____ (is / are) also some islands _____ (off / of) the north coast and _____ (off / of) the south coast in the west. There are several _____ (forest / forests) and there are also some _____ (province / provinces) with lakes. There are ____ (not / no) volcanoes and there aren't ____ (all / any) rainforests, either. The climate is _____ (temperate / temperature) , and it's also very _____ (humid / humidity), so this means that it can rain ____ (at / any) day, in any season, ____ (all / any) time of the year. So that _____ (mean / means) if you go out cycling, you must bring a raincoat _____ (anytime / anything) you go out cycling.

Are there any _____ (district / distinct) geographical features in your _____ (region / regional)?
