

Hello, my name is Elizabeth. I am from the United States. And my question is, what is a _____ (jobs / job) that would stress you _____ (over / out)?

_____ (For / From) me, being a nurse is a job that would be very _____ (stressed / stressful). I say this because I am very squeamish. I don't like the _____ (sight / site) of blood or broken bones or _____ (anyone / anything) gross. I also don't like the _____ (smell / small) of a hospital, and I'm not very good in emergency _____ (situation / situations). I tend to panic. I do not _____ (remained / remain) calm. So I don't think any _____ (patients / patience) would want me as their nurse. I do have _____ (friend / friends) who are very competent _____ (nurses / nurse). I'm very thankful that they are.

So, yes. So for me _____ (personal / personally), this is not a job that I would want because again, I would be very _____ (stressed / stress) out.
