Hi, my name is Saif and I'm from Pakistan. And _____ (my / me) question is, is _____ (technological / technology) making our life better or _____ (worst / worse)?

Whether you're a _____ (science / scientist), an army general, surgeon, _____ (engineers / engineer), or even a musician, technology not only _____ (makes / make) our everyday life tasks _____ (easier / easy), but also plays a vital role in strategizing, _____ (planned / planning), and executing future plans and _____ (decision / decisions). Now, there is a negative side to technology which we all _____ (convenient / conveniently) ignore. It can be _____ (invasive / invasively) to our privacy. It can hurt our interpersonal _____ (communicate / communication) skills.

Extended screen time in _____ (minors / minor) has made them addicted leading to eye strain, insomnia, and in worst _____ (cases / case), depression. Indeed, we're _____ (building / build) robots to replace factory workers and _____ (homemade / housemaids), but who knows, one day the same _____ (minions / minion) we train to be our slaves will be our _____ (masters / master).
