

Hi, my name is Alexis and I'm from the \_\_\_\_\_ (United / Unite) States. And my question today is what \_\_\_\_\_ (wood / would) you change about the \_\_\_\_\_ (education / educational) system in your country?

So, I am in school to be a \_\_\_\_\_ (teacher / teachers). I will be a \_\_\_\_\_ (certification / certified) teacher in the next three months. And I've had a lot of \_\_\_\_\_ (experiences / experience) in schools, and I do think that \_\_\_\_\_ (overalls / overall) it is okay. But I do think one of the main things that I would \_\_\_\_\_ (focus / focusing) on is really ensuring that no kid gets left \_\_\_\_\_ (before / behind) or falls through the \_\_\_\_\_ (crack / cracks) because I do feel like \_\_\_\_\_ (education / educational), it's getting better, but it is very \_\_\_\_\_ (general / generally) and a lot of what is \_\_\_\_\_ (taught / teach) isn't to fit the needs of all \_\_\_\_\_ (students / student). So that's probably what I would change the \_\_\_\_\_ (more / most), but I only have about a minute to \_\_\_\_\_ (answer / answered) this question and I could go \_\_\_\_ (up / on) for an hour.
